Shooting resume

My primary focus is always on gun safety. I am dedicated to instilling proper shooting techniques and safety measures in students, ensuring they are well-prepared for any situation. I also teach alternatives to firearm protection.

In addition to training, I am a Federal Firearms License holder, allowing me to buy and sell firearms. I accept firearms for sale on consignment and am an AGI Certified Firearms Appraiser. As an FFL, I am able to buy firearms at wholesale for my students, assuring that they obtain the perfect firearm for their style and purposes.

I have 30 years of university-level teaching, research, and administrative experience and over 25 years of pistol and shotgun shooting experience.
